

CAMLPR NEWS

MISSION

The NBSMLT regulates the profession of Medical Laboratory Science through high standards of practice, education and collaboration to ensure public protection.

VISION

- Grow and expand through collaboration and engagement
- Advance our leadership in healthcare

VALUES

- Engagement
- Professionalism
- Collaboration
- Transparency
- Accountability
- Public confidence
- Innovation

The Canadian Alliance of Medical Laboratory Professionals Regulators (CAMLPR) represents provincial regulatory member organizations for Medical Laboratory Technologists in Canada.

The role of CAMLPR is to establish standards for the knowledge, skills, and judgement in the practice of medical laboratory technology. CAMLPR is focused on fair, efficient, effective, ethical, transparent, and inclusive regulatory approaches and practices for medical laboratory professional regulation across Canada.

On August 13, CAMLPR published a press statement announcing the release of new competency profiles for the eight fields of practice within the medical laboratory technologist (MLT) profession. Full Press release can be found [here](#).

We are conscientious that members have expressed concerns and have many questions regarding the CAMLPR Flexible Pathways to Registration for Medical Laboratory Technologists Fields-of-Practice Competency Profiles, exams and Prior Learning Assessment (PLA).

In response to these questions, CAMLPR has created a Frequently Asked Questions (FAQ) section on their website, which should assist in providing further clarity and assurance regarding the process and the transition.

Please consult the CAMLPR website for a comprehensive list of questions at [CAMLPLR FAQs](#).

The FAQ section will be updated regularly as the project progresses.

As always, should you have any additional questions or areas requiring further clarification, please do not hesitate to contact the NBSMLT.
